MEMORANDUM FOR [redacted]
CENTRAL INTELLIGENCE AGENCY

The enclosed letter with attachment was apparently addressed to me at the suggestion of Mr. Roudybush, a Regional USIE Director in Germany. I enclose a copy of my reply which I am sending from my home address without any reference to PSB. [redacted] thought I might best refer the matter to your shop, with the suggestion that your people consult with State if you think it worthwhile. I have no idea whether this is really a lead with something in it for either agency. [redacted] merely asked for a chance to explain his proposition to a qualified representative [redacted] He may in any case be a person of some usefulness.
